

$$b = 230 \text{ mm} - a \times 0,33$$

EG:

$$a = 180 \text{ mm}$$

$$b = 230 \text{ mm} - a \times 0,33$$

$$b = 230 \text{ mm} - 180 \times 0,33$$

$$b = 230 \text{ mm} - 59,4 \text{ mm}$$

$$b = 170,6 \text{ mm}$$

$$b = 140 - 230 \text{ mm}$$
